Career Trends

Police Officer

Police officers are responsible for enforcing the law and they are always prepared to respond to calls for service. They help crime victims, re-establish order by calming people, secure the crime scene, and restrain any violent individuals. Police officers can specialize and become experts in areas such as chemical and microscopic analysis, or handwriting and fingerprint identification. Others may work with special units at the local, county, state or federal levels.

Earning

\$32k to \$84k

Education Requirements

4-Year College or University

2-Year College or Technical Training

Veterinarian

The day-to-day work of veterinarians involves examining animals, making diagnoses, doing blood tests or x-rays, treating animals' diseases or injuries, performing surgery, and preventing animal illness through vaccinations. Veterinarians may specialize in a particular area of medicine, such as surgery, dentistry, dermatology, oncology, etc. Some vets work with companies that develop and produce animal food or drugs; while others are employed by the government to inspect livestock for diseases.

Earning

\$50k to \$145k

Who we are.

United Alloy, Inc. is a ISO 9001:2008 facility and is a Certified Women Owned Business located in Janesville, Wisconsin USA producing the highest quality diesel fuel tanks, generator frames, heavy metal fabrications and weldments. We are registered with the State of Wisconsin, Bureau of Procurement, VendorNet System, and CCR.

Customer focused, innovative, quality driven and on-time delivery define everything about UAI, from our technical expertise and process oriented manufacturing to the world-class certified solutions we create.

Engagement

As one of the area's leading technical education advocates, United Alloy consistently participates in various business and education activities. The company's financial support, as well its state-of-the-art equipment donations, are visible at Blackhawk Technical College's (BTC) Advanced Training Manufacturing Center. United Alloy representatives serve on BTC's advisory committees for Business and Community Development, the Manufacturing/Welding and the Information Technologies programs. Additionally, United Alloy frequently interacts with the area's K-12 Career & Technical education programs.

Who we hire.

We are looking for employees who know how to work well in teams, can problem solve, are self-motivated and have good work ethics. Good communication skills are also very important.

United Alloy hires qualified 'solutioneers', who serve as a valuable extension of every UAI customer's internal design team. Their expert insight often yields innovative solutions that improve product performance, enhance quality and improve manufacturability that reduce costs. UAI's hands-on expertise assures its customers that their initial design will be repeatedly reproduced to the finest detail.

Career Coaching

Marketing Career Cluster

"I enjoy participating in the Inspire Rock County initiative because it's an effective way to provide feedback that students can use as they investigate their future career options."

Human Services Career Cluster

"It's a great tool to exchange ideas and information about the career path that I have chosen. Hopefully, the students are enjoying the interaction as much as I am."
